**OVERVIEW**

URC offers a family of sensors to enhance Total Control automation, support power management and enable integration of legacy devices. They include audio, contact closure, current, light, video and voltage sensors. Use the sensors with Total Control base stations that are equipped with 3.5mm sensor ports. Add the MRX-4SEN2 sensor extender for expanded coverage.

- Sense activity and transmit a control signal to base station
- Trigger event - play music, dim lights, close shades
- Support power management
- Enable integration of legacy devices
- See individual URC sensor spec sheets for additional details

**HIGHLIGHTS**

<b>Plug</b>	3.5mm plug
<b>Indicator</b>	Status indicator LED
<b>Adjustment</b>	Delay and sensitivity adjustment – varies by sensor
<b>Range</b>	Extend up to 120 feet with two-conductor cable (not included)

**SPECIFICATIONS**

<b>SKUs</b>	SEN-AUD, UPC 656787-330436
	SEN-CCLS, UPC 656787-330429
	SEN-CMF, UPC 656787-330443
	SEN-LITE, UPC 656787-330450
	SEN-VID, UPC 656787-330412
	SEN-VOLT, UPC-656787-330405
<b>System</b>	Total Control® - Professional programming required
<b>Dimensions</b>	Approximately 3" W x 6" H x 1" D – varies by sensor
<b>Weight</b>	Approximately 3 oz. – varies by sensor
<b>Warranty</b>	2 year limited USA warranty
